

Would you like to come along
We can sing a simple song
If you want to name the tune, you're invited
I'm so glad that you're my friend
Did I say I think we'll win
Though the fight is so often one-sided
Can we sing that part again
All about how we will win
Gotta know how in the end nothin's dyin'
And the ribbon in the sky
Is the vision in your eye
Let's get lost in... stay lost and refine
The art of flyin'

We'll be 10 K high over the mountain
Over the river
We'll be 10 K high trusting our dream
To forever
We'll be 10 K high over the mountain
Over the river
We'll be 10 K high in every dream
Makin' heaven

What a day for breaking through
What a day for seeing you
Do you remember how we said
Nothin's dyin'
And the love of which I sing
Is like the phoenix on the wing
We started, we parted, we found
We're fond of flyin'

Speaking of warring nations
Talk of broken heart relations
Set me down in revelation's light
So that I might
That I might find a way to tell you true
Miracles redeeming you

We'll be 10 K high over the mountain
Over the river
We'll be 10 K high trusting our dream
To forever
10 K high
