All of my love
No one's ever held me like you hold me
No one's ever touched me in this way
But I'm not runnin' anymore

Never felt this way before
All of my love, I will give to you
All of my dreams will be comin' true
In the heat of a tangled kiss

Say you will and I promise you this All of my love, I will give to you All that I ask is you love me too Take a look, I'm never far behind

Turn around and gimme, gimme, gimme a sign I will put my feelings into one place Center my emotions on your face I could spend a lifetime sharin' night time 'Cause when you're lyin' close to me Somethin' tells me that you need

So, be my lover, be my friend Say this love will never end Want no other in my life Our forever starts tonight All of my love, oh yes

So, be my lover, be my friend Say this love will never end Want no other in my life Our forever starts tonight All of my love, oh yes
