(Round, Round) Blue Rondo A La Turk

Al Jarreau

Round, round, round a melody Round, round, round a harmony Round, round, round a melody Harmony, melody steadily

Round, round, round a melody
Round, round, round a memory
Round, round, round a melody
Memory, melody, merrily
There's a melody I used to play
Counterpoint every yesterday

Swiftly up and down I hasten and Chasten my fingers and heart to play

Round, round, round a melody Round, round, round a memory Round, round, round a melody Memory, harmony steadily

Round, round, round a melody Round, round, round a mystery Round, round, round a melody Mystery, mirror of history

Taking over all my reveries Hearing passions in the melodies Play it up and down so wearily Stumbling, fumbling, tumbling

Round, round, round a melody Round, round, round a harmony Round, round, round a melody Harmony, melody, memory

Round, round town I follow you Round, round town I'm calling you Round, round town I hasten to do All the chasing you want me to

Open up an opportunity
For I know that you will be
Truly happy and content with me
Measure me, treasure me, pleasure me

Open up an opportunity
Open up an offer. You will be
Truly happy and content with me
Measure me, treasure me, pleasure me

Round, round, round a melody Round, round, round a you and me Round, round, round a melody You and me, melody and harmony

Round, round, round a melody Round, round, round a harmony

Round, round, round a melody Harmony, mystery, you and me

Don't you see
That we were meant to be
One and the same
Melody, married to harmony
One and the same
Change the score
We will be ever more
One and the same
Melody, married to harmony
One and the same

Here it comes, our symphony
Measure by measure
A melody and harmony
You and me in harmony
You and me so happy
We're making it
Shaking the blues ain't bothering me

Here it comes, our symphony
Measure by measure
A pleasure
A melody and harmony
You and me in harmony
You and me so happy
We found a new rondo
To end the blue rondo today
