

# Through It All

Al Jarreau

Come to me  
Whenever you're in time of need  
I won't melt away  
Like a fair-weather friend  
On me you can depend

If I may  
I'd like to take this time to say  
I'll be by your side  
Til the sun grows dark  
And the moon brings light of day

Oh it's me for you and you for me  
That's how it's got to be  
Though fainter hearts  
May come and go  
Here's one thing you'll always know

Through it all  
You can depend on me  
When tears begin to fall  
And I will chase the clouds away  
Through it all  
I will ease your pain  
When sorrows comes to call  
Oh, through it all

When you say  
You've never been loved quiet this way  
I have to smile  
And take credit for being  
The first to truly say

Oh through it all  
A spirit that's brighter by far  
Then all of the stars  
That shine through the night  
You glow with heaven's light  
It's me for you and you for me  
That's how it got to be  
Though love affairs  
May come and go  
Here's one thing you always know

Through it all  
You can depend on me  
When tears begin to fall  
And I will chase the clouds away  
Through it all  
I will ease your pain  
When sorrows comes to call  
Through it all  
No empty promises you can be sure  
We've both been down this road  
And this time it's so much more  
So much more

Through it all I will ease your pain  
When sorrows comes to call  
I will stop the rain  
(I'll be here beside you)  
(The pain and rain can't hide)  
(I'll be here beside you)  
(The pain and rain can't hide)  
(I'll be here beside you)  
(The pain and rain can't hide)
