sometimes the light don't shine
that's the time we gotta open our eyes...
you and me baby gonna get
REHABILITATED

sometimes the light don't shine
sometimes the light don't shine
sometimes the light don't shine
what?
sometimes the light don't shine
what?
rehabilitated

some say the only way to ease the pain is gettin' down to pray
I'm with no guru, no teacher for me
I got no faith in no fantasy
one too many, went flyin' too long
so many mornings already gone wrong, baby
been so long and I've been feelin so bad
deep down in a dark, dark, dark cave

sometimes the light don't shine
that's the time we gotta open our eyes, yeah
sometimes the light don't shine

rehabilitated

sometimes the light don't shine
that's the time we gotta open our eyes, yeah
sometimes the light don't shine
you and me baby gonna get

rehabilitated

well ah, hey, I went down to N.A.
business was a bouncin' like back in the day
hypocrites hidin' habits all over town
pop stars gushin' bout the faith they've found
left me so cold, I walked out in the rain
waitin' early for that midnight train
been so long, I've been feeling so bad
I'm gonna blow away the blues tonight
'cause'a

sometimes the light don't shine
that's the time we gotta open our eyes, yeah
sometimes the light don't shine
you and me baby gonna get rehabilitated

sometimes the light don't shine
that's the time we gotta open our eyes, yeah
sometimes the light don't shine
you and me baby gonna get rehabilitated
