

# As Long as There's Love

Alabama

I wanna add  
And not subtract  
Put more in  
And take less back  
And multiply  
And not divide  
All the faith  
That I can find

As long as there's love  
We can cope  
As long as there's love  
We have hope  
As long as there's love  
Like a newborn child  
As long as there's love  
We can survive

I wanna be that missing link  
That brings about  
All world peace  
I wanna be  
That doctor man  
That wipes disease  
From our land

As long as there's love  
We can cope  
As long as there's love  
We have hope  
As long as there's love  
Like a newborn child  
As long as there's love  
We can survive

Big as the moon  
Small as a star  
Dreams don't matter  
Who we are

As long as there's love  
We can cope  
As long as there's love  
We have hope  
As long as there's love  
Like a newborn child  
As long as there's love  
We can survive

I think about  
All the kids  
Will they live free  
As I did  
Will they know  
Right from wrong  
And have the will  
To carry on

As long as there's love  
We can cope  
As long as there's love  
We have hope  
As long as there's love  
Like a newborn child  
As long as there's love  
We can survive
