

Come Find Me

Alabama

Every once in a while
I catch a gust of wind in my sail
Girl you know I never can tell
Where it's gonna take me

Every now and then
I get to rollin' and the wheels come loose
I'm rockin' like a rock star dude
Out here in the crazies

Come find me
I'm out on the wind tonight
Come find me
I could sure use my friend tonight
Come find me
Come and get your guitar man
Come find me
Cause only you know where I am

I'm somewhere out west
Headin' somewhere down south
Girl and right about now
I'm all alone

Your ramblin' boy's
Been dancin' out on the ledge
Ain't enough of my candle left
To light my way home

Come find me
I'm out on the road tonight
Come find me
The one I want to hold tonight
Come find me
Come and get your guitar man
Come find me
Cause only you know where I am

Oh tonight there's
just a sliver of a silver moon
Above on this lost highway mmm
I sure do miss you baby

Come find me
Come and get your guitar man
Come find me
Cause only you know where I am
Come find me
Come and get your guitar man
Baby come find me
My friend tonight
Baby come find me
Come and get your guitar man
Come and get your guitar man

I'm out on the road tonight
So come find me
