

# It's About Time

Alabama

We're burning things every time  
Seems we never learn  
We make the same mistakes once again  
Digging ourselves deeper in this hole that we're all in  
Today might be the day for us to stop and start again

It's about time it's about space  
It's about saving the human race  
It's about hate, it's about love  
It's about everything above  
It's about war, it's about peace  
It's about changing history  
It's about you, it's about me  
It's about time

Every day we drift a little farther from the truth  
Without a star to lead us we're all lost  
They say we're the devil, never looking at the clock  
Therapy helped the pain on the day the music stops

Every father, every mother  
Every sister, every brother everywhere  
Say a prayer
