

No Bad Days

Alabama

There's a farmer in a wheat mill praying for rain
There's a mother in mourning, and a child that's in pain
Living in the hard times when you're down on your luck
But it ain't in the falling, it's in the getting back up

As long as your heart's beating [your heart's beating]
There's no bad days [no bad days]
You've got something to believe in
There's no bad days [no bad days]
As long as you're dreaming, preaching, seeking
Make no mistake
As long as you're breathing [long as you're breathing]
There's no bad days

When the sun just ain't shining, and the end is not in sight
Have faith in the shadows and you'll find light
It's amazing, the view when you're down on your knees
You may not get what you want, but you get what you need

As long as your heart's beating [your heart's beating]
There's no bad days [no bad days]
You've got something to believe in
There's no bad days [no bad days]
As long as you're dreaming, preaching, seeking
Make no mistake
As long as you're breathing [long as you're breathing]
There's no bad days

Life is so fragile
It can change on a dime
Don't put off till tomorrow
You might just run out of time
Tell someone you love them before it's too late
We're not promised tomorrow
So there's no bad days

As long as your heart's beating [your heart's beating]
There's no bad days [no bad days]
You've got something to believe in
There's no bad days [no bad days]
As long as you're dreaming, preaching, seeking
Make no mistake
As long as you're breathing [long as you're breathing]
There's no bad days

No bad days, no bad days
There's no bad days
As long as you're breathing [long as you're breathing]
As long as you're heart's beating [your heart's beating]
There's no bad days
No bad days
