

# Nothing Comes Closer

Alabama

Well, I've been lucky but to travel this great land  
From the mountains of Montana to Sarasota sands  
Oh, what I life living my dream  
I can say these eyes have seen so many thing.  
The moon over Miami, sunset in Frisco Bay  
It's all been so beautiful but still I'd have to say.

Nothing comes close to the beauty of your love  
Nothing comes close your a site I can't describe  
Nothing comes close when you're lyin' by my side  
Nothing comes close, oh no  
Baby, I've been there, nothing comes close.

I could search forever and never stop  
Walk every valley and climb each mountain top  
Sail every ocean till the end of my day  
But when it'll be over still believe I'd say.

Nothing comes close to the beauty of your love  
Nothing comes close your a site I can't describe  
Nothing comes close when you're lyin' by my side  
Nothing comes close.

Nothing comes close to the beauty of your love  
Nothing comes close your a site I can't describe  
Nothing comes close when you're lyin' by my side  
Nothing comes close, oh no  
Baby, I've been there nothing comes close, oh no...
