

Old Flame

Alabama

1. I saw you star-ing at each oth - er
I saw your eyes be-gin to glow
And I could tell you once were lov-er's
You ain't hidding nothing I don't know

R: There's an old flame, burning in your eyes
That tears can't drown, and make-up can't disguise
That old flame may not be stronger, but it's been burning lo
nger
Than any spark I might have, started in your eyes

2. You said it ended when he left you
You say your love for him is gone
But those old memories still up set you
For I might be a memory before to long

R: There's an old flame...

Cause there's an old flame, burning in your eyes
