

Back In My World

Alain Clark

It's been different since you've gone
Ooh but one thing never changed
That I steel hate to say 'I'm wrong'
Girl but I'm telling you
Baby, come back in my word now
Cause lately it's been kind of lonely
Baby, I got to be honest that lately I can't live with out you
If I open out my door, ooh would you please consider to looking
in
If you do you can be sure that I'll be there on my knees being
you
Baby, come back in my word now
Cause lately it's been kind of lonely
Baby, I got to be honest that lately I can't live with out you
Every one deserve a chance
To make up for theirs mistakes
And my biggest one was to let you go
I told you whatever it takes
Baby, baby, come back in my word now
Cause lately it's been kind of lonely, lonely, lonely
Baby, I got to be honest that lately I can't live with out you
by my side
Baby, come back in my word now
Cause lately it's been kind of lonely
You got to come back, back in my world
Cause baby I can't live with out you by my side
