

Love Of A Lifetime

Alaine

When I close my eyes
I see you, running through my mind
I feel you,
I breathe you
Oh, how I need you

Finally we found the love of our lifetime
And I can see my whole future in your eyes
I don't believe when they say love is blind
I can see clearly baby, you and me,
We found the love of our lifetime

Forever is not enough time to spend with you
I wanna love you longer
Cause baby with every single thing you do
I wanna love you stronger
Searching for love all my life
Now that I found you
I realize, baby with you I'm alive
So alive

Finally we found the love of our lifetime
And I can see my whole future in your eyes
I don't believe when they say love is blind
I can see clearly baby, you and me,
We found the love of our lifetime

And it's incredible how you know me each and every way
So unforgettable that the we feel it can never change
All that I need and adore
All I been asking, all I been longing for
This is it, I'm sure
I'm so sure

Finally we found the love of our lifetime
And I can see my whole future in your eyes
I don't believe when they say love is blind
I can see clearly baby, you and me,
We found the love of our lifetime

A lifetime of me holding you
So close I breathe you in
My fantasy turn real and I'll be loving you until
Forever's gone away and starts over again
Our love will remain

Finally we found the love of our lifetime
And I can see my whole future in your eyes
I don't believe when they say love is blind
I can see clearly baby, you and me,
We found the love of our lifetime

Forever is not enough time to spend with you
I wanna love you longer
Cause baby with every single thing you do
I wanna love you stronger
Searching for love all my life

Now that I found you
I realize, baby with you I'm alive
So alive

Finally we found the love of our lifetime
And I can see my whole future in your eyes
I don't believe when they say love is blind
I can see clearly baby, you and me,
We found the love of our lifetime
