Bitter heart... bitter thoughts...
Live them all in the past... cause I got no time linger

Life is a winding road
Nobody knows the pain I known

And carry me through streets and alleys
Over hills and valleys and trod-trod-trodding along

And I'm still smiling... smiling... smiling through the pain
I'm still smiling... smiling... smiling through the rain
I'll smile... til I'm whole again
Smile...

Jah jah shine on me

Always dark before the light... they will ever follow night
So I'll wait... wait until the morning
Life is a winding road
Nobody knows the pain you've known
Jah jah alone can keep you strong
And carry you through streets and alleys
Over hills and valleys and trod-trod-trodding along

I'm holding on... I'm still still holding on
Evil coulda never make me fall
I'm staning tall through it all
I'm still standing (2x)
