

# I Leave a Light On

Alan Jackson

I do alright, most of the time  
I've learned to move on, I've learned to get by  
But sometimes I can't find the reason to be free  
So I leave a light on for your memory

I leave a light on for your memory  
So it will be easy to come back to me  
When it's late and I'm alone, I need some place to be  
I leave a light on for your memory

You found a new love and I'd like to believe  
That you're really better off without me  
The good days have slipped away but I sometimes dream  
So I leave a light on for your memory

I leave a light on for your memory  
So it will be easy to come back to me  
When it's late and I'm alone, I need some place to be  
I leave a light on for your memory  
Yeah, when it's late and I'm alone, I need some place to be  
I leave a light on for your memory
