

# Long Way to Go

Alan Jackson

Well I drove down to the ocean  
Left my heartache way behind  
But the rain won't leave and the pain won't ease  
And the sun don't wanna shine

So I ordered me up a killer  
Found a view out across the sea  
I sat down in the sand  
A drink in my hand  
And in the glass looking back at me

I got a bug in my margarita  
Seems bad luck won't leave me alone  
I got a woman I'm tryin' to drink away  
And I got a long, long way to go  
Yeah, I got a long, long way to go

Well I met an old boy from Georgia  
Yeah, his woman done knocked him down  
I asked him how's he doing  
He stared at me confused  
And said, "Hey, ain't you looked around?"

He said the rain won't leave  
And the pain won't ease  
And the sun don't wanna shine  
And there's something in the bottom of this drink I just got  
And it don't look like a worm to me

I got a bug in my margarita  
Seems bad luck won't leave me alone  
I got a woman I'm tryin' to drink away  
And I got a long, long way to go  
Yeah, I got a long, long way to go

So we put our drinks together  
And toasted rainy weather  
And the women that had done us wrong  
Then we threw back margaritas  
The bug just made it sweeter  
And we both sang a happy song

I got a bug in my margarita  
Seems bad luck won't leave me alone  
I got a woman I'm tryin' to drink away  
And I got a long, long way to go

Yeah, I got a bug in my margarita  
Seems bad luck won't leave me alone  
I got a woman I'm tryin' to drink away  
And I got a long, long way to go

Yeah, I got a bug in my margarita  
Seems bad luck won't leave me alone  
I got a woman I'm tryin' to drink away  
And I got a long, long way to go  
Yeah, I got a long, long way to go
