

# Once in a Lifetime Love

Alan Jackson

Some people have it, some people don't  
Some people never will  
Sometimes it's hard to know when you've got it  
Sometimes it's perfectly clear

Well I know it's out there I've seen it happen  
I know the way it should feel  
Cause there's no mistakin'  
That good kind of achin'  
Of a once in a lifetime love

Once in a lifetime love  
A love like we've all dreamed of  
It may go disguised or right before your eyes  
A once in a lifetime love

So if you think you've got it  
If you feel it inside you  
Don't let it slip away  
Cause you may not ever find what you never  
Thought you'd have anyway  
And if you've always had it and just realized  
You know how lucky you are  
To wake up beside what some never find  
A once in a lifetime love

Once in a lifetime love  
A love like we've all dreamed of  
It may go disguised or right before your eyes  
A once in a lifetime love

It may go disguised or right before you eyes  
A once in a lifetime love
