

Right Where I Want You

Alan Jackson

I'm usually strong
Keep love all away
Wall around my heart
So it won't have to brave
But you take me some place that I've never been
Now I don't know if I'll find my way back again

Cause you've got me right where I want you
And there's not a thing I can't do
Completely consume all about you
You've got me right where I want you

I close my eyes you're looking at me
You wake me at night walking round in my dreams
Windows are smell of roses in blue
And all I can think of is last night's perfume

Cause you've got me right where I want you
And there's not a thing I can't do
Completely consume all about you
You've got me right where I want you

And I've never thought that I would get caught
But here I am wrapped up in you

You've got me right where,
You've got me right where,
You've got me right where I want you.
