

# I Love You

Alannah Myles

Sitting here on the horizon  
Waiting for the moon to rise  
Love has a way of arriving  
Out of the clear blue sky

Ooo, I love you  
Don't you know it's true  
When you believe in something good  
It always comes through  
Always comes true

Last year was harder  
Think I'll settle down for a while  
And the peaks of the mountains are glowing  
And the canyons echo your smile

Ooo I love you  
Don't you know it's true?  
When you believe in something good  
It always comes through  
Always comes true

You are there to catch each tear  
Every time I fail  
How can I give back each year  
Tell you I... I....  
I believe

Ooo I love you  
Don't you know it's true  
When you believe in something good  
It always comes through  
Ooo I love you  
Don't you know it's true  
When you believe in something good  
It always comes through  
Always comes true

It always comes true.
