

Who Loves You

Alannah Myles

I send a message to you
I close my eyes and hope it gets through
It's in the language of love
It's in your touch, bearing 'em all
I wonder if you hear me tonight
Sometimes you're so far away
I wanna have you near me tonight
Do you belong to me
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it now
So tired I can't fall asleep
I close my eyes and breathe in the heat
I've got this passion for you
Like desperation out of the blue
I wonder if you hear me tonight
Sometimes you're so far away
I wanna have you near me tonight
Do you belong to me
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it now
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it
Who loves you, who you're gonn' hold on to
Who loves you, what's you gonna do about it now
What's you gonna do about it now
