

## Just Hate

Alastis

Till my death,  
Through my dreams,  
Shall grow my knowledge

Just hate, on your face  
Just hate, in your eyes

You're afraid, you're afraid of everything  
You try to hide, to hide it from me  
Already, I can feel your presence  
Already, I feel your coming damage

Just hate...in your heart  
Just hate...in your moves  
You're afraid, you're afraid of everything  
You try to hide, to hide it from me

Already, I can feel your presence  
Already, I detect your coming damage

Just hate...in your thoughts  
Just hate...in your soul

I'm ready...I'm ready  
Ready for the final confrontation

Just hate in your thoughts  
Just hate in your soul  
Till my death...just hate  
Through my dreams, just hate  
Shall grow...just hate  
...my knowledge Just hate
