

She's Into Something

Albert Collins

Say what you do!

Snappin' of a finger make a dog wag it's tail
A whistle from her voice make a train jump it's rail
Take her to the racetrack
Show her face
A horse in years will come in first place!

She's into something
She's into something
She's into something
You should be into something too!

Well you laughed at her about a week ago
Now she's met a man with a whole lot of dough and oh yeah he's rich!
I seen the money!
And all she had to was to call the man "Honey"

She's into something
She's into something
She's into something
You should be into something too!

She rides around town
On her wheel
Oh yeah you might say she got herself a stone-cold deal
One thing the girl
She don't have to do
Is worry 'bout no money when the payment's due!

She's into something
She's into something
She's into something man you should be into something too!
