## **Postal Blowfish**

## Albert Hammond, Jr.

noticing the change
We are taking time
Everybody knows
Everybody's fine
And we'll figure out
Purpose in the end
Unless we have to jump
Unless we have to swin

Chorus: hold your tongue Brace yourself Give me a kiss Show me what i missed

Can i find a phone Can i drop a dime Can i get a loan Running out of time And i'll have a toast To what it's all about Unless they move us on Unless they move us out Chorus Seven doglegs hung to dry It works that way Postal blowfish make me cry It works that way Begging on the nail don't fail To clue me in ??cluster frogs and crabs begin??
