

Scared

Albert Hammond, Jr.

You know that something
Inside of you
Still plays a part
In what I do, always
I'm here for you
I think
That if we were all we had
That's more
Than most people ever have
Anyway
Oh, anyway
You can stay here

I know you're still there
Because you're scared
That you'll lose everybody
I know you're still there
Because you're scared
That you'll lose everything
I know you're still there
Because you're scared

I'm here if you're scared
To go through
Anything just reach out
In front of you, always
Won't you stay near
So close we played it
As if we cared
Don't stop now
That we're almost there
Anyway
Oh, I'm here for you

I know you're still there
Because you're scared
That you'll lose everybody
I know you're still there
Because you're scared
That you'll lose everything
I know you're still there
Because you're scared

I know you're still there
Because you're scared
That you'll lose everybody
I know you're still there
Because you're scared
That you'll lose everything

I know you're still there
Because you're scared
That you'll lose everybody
I know you're still there
Because you're scared
That you'll lose everything

I know you're still there
Because you're scared
That you'll lose everybody
I know you're still there
Because you're scared
That you'll lose everything
I know you're still there
Because you're scared
