

Candle Light, Sweet Candle Light

Albert Hammond

Candle light, sweet candle light, throw shadows on the wall
And aside from the whisper of your breath, there is no sound at
all

Candle light, sweet candle light, keep a loving mood
We won't leave this country paradise 'til we run out of food

I'll kiss you 'til you're quivering, I'll love you 'til you cry
I'll love 'til you're falling asleep

I'll wake you in the dead of night, I'll love you in your dream
s

For my love is like the universe, so deep

Through the window in the roof what starry world above
But we will not leave this world of ours 'til we run out of lov
e

Yes, I'll wake you in the dead of night, I'll love you in your
dreams

For my love is like the universe, so deep

Candle light, sweet candle light, your wick has burned to death
But we will not leave this paradise 'til we run out of breath
