

I Want You Back Here with Me

Albert Hammond

Now that you gone away, I missing you more each day
Inspite of the aches and pains, the feeling remains
I lay awake at night, I think how you held me tight,
Nobody else would do, no one but you
It's a sad situation, I don't need no explanation
I was such a fool to doubt you
Now I just can't live without you
I get this feeling for you and I know
Something I just didn't see
I get this feeling for you, don't you know
I want you back here with me
Cuz I love you, I need you, I want you
I want you back here with me
So much was left unsaid, turning inside my head
Somehow I found the words since you've been gone
No one can mean as much
Oh, how i miss your touch
No other love will do, no one like you
Once you touch me soft and gentle
Once you make me sentimental
I was such a fool to doubt you
Now I just can't live without you
I get this feeling for you and I know
Something I just didn't see
