

# If You Gotta Break Another Heart

Albert Hammond

If you gotta break another heart  
Then break it, come on and break it  
If you gotta take that kind of chance  
Then take it, go on and take it

Anything I say or do will make no difference  
In the end you'll go ahead and do what you really wanna do

If you gotta break another heart, then break it  
If you gotta take that kind of chance  
Then take it, you are free to take it  
But don't come runnin' back to me

If you're gonna make another change  
Then make it, go on and make it  
If you're gonna do it, do it now  
Don't leave it 'cause I can't take it

Everybody knows that you were born a drifter  
You were born a drifter, baby, you'll never, never settle down

If you gotta break another heart, then break it  
If you gotta take that kind of chance  
Then take it, you are free to take it  
But don't come runnin' back to me

If you gotta play another tune, then play it  
If you gotta say what's on your mind  
Then say it, go ahead and say it  
But don't come runnin' back to me

Da-da-da-da-da-da-da-da-da, then break it  
Da-da-da-da-da-da another chance  
Then take it, you are free to take it  
But don't come runnin' back to me

If you gotta play another tune...
