

One Life

Albert Hammond

In another life
We would always be together
Never for a day would you leave me
Believe me

In another life
I would be your only lover
You would never say love is never
Forever

I have one life
You have one life
Let's not live it in sorrow
Love me one time
In my lifetime
Lasting all my tomorrows

In another life
Where the pace is slow and easy
We would live our lives without tension
Deceit

I have one life
You have one life
Let's not live it in sorrow
Love me one time
In my lifetime
Lasting all my tomorrows

Love me one time
In my lifetime
Love me now and for always and always and

I have one life
You have one life
Let's not live it in sorrow
Love me one time
In my lifetime
Lasting all my tomorrows

I have one life
You have one life
Let's not live it in sorrow...
