

Tangled Up In Tears

Albert Hammond

Baby you called in crying and said you need me today
But you just threw me away
Just like a new piece of gum

Baby in havens name I just don't know what to do
I've been without end with you
Either way it seems after he comes
Take a look
In tears like a traffic jam and I can't move on cuz the man I am
Is the man who's gone round and round in circles with you I can
not undo the pattern

Tangled up in tears it's a colder sack it will always be
But I come right back When you wanting me and I wonder off who
you amazing
You know all the ways to hold me
Come would's unknown to me clinge it hard to pull them a way
You found a old friend today o a new way for me
swing the tears like pearls you mite be lone heavy chain
Am always court in the rain
And oh my true ends are free
I take a look in tears like a traffic jam and I can't move on cuz the man I am
Is the one who's gone round and round in circles with you I can
not undo the pattern

I know, you know, I have know where eles to go
La,la,la,la,la,

Spring in the tears like pearls you mite be lone heavy chain
Am always court in the rain
And oh my true ends are free
I take a look in tears like a traffic jam and I can't move on cuz the man I am
Is the one who's gone round and round in circles with you I can
not undo the pattern
Tangled up in tears it's a colder sack it will always be
But I come right back When you wanting me and I wonder off who
you amazing
You know all the ways to hold me
Take a look in deep like a traffic jam I can't move on cuz the man I am
Is the one who's gone round and round in circles with you I can
not undo the pattern
