

World of Love

Albert Hammond

All things are bright and beautiful
Looks like I've finally broken through
And all my searching's over now
I've found a world of love in you

I've travelled down so many roads
But in my heart I always knew
I'll find a road to bring me here
Inside this world of love with you

I bet my life on a miracle
A dream to carry me through
Now I've seen that dream come true

And though it's taken all this time
It's something I just had to do
I have no need to wander now
Here in this world of love with you

And though it's taken all this time
It's something I just had to do
I have no need to wander now
Here in this world of love with you
Here in this world of love with you
