## **God Blessed Video**

## Alcatrazz

Let's take a plane and go somewhere exotic

To play with a non-descript song

We'll shoot all the crotch shots for 12 year old hopefuls

To make you a real man my son

Ahhhh real man my son

Some cheap kid from Birmingham
Blessed with an accent
That pours like the darkest brown ale
Just one more puppet, piss elegant marionette
He's just a fast buck for sale
Ahhhh fast buck for sale

Don't you know that God blessed video We know that God blessed video

Break out the cameras that re-shape my face And get someone to carve up my hair If you can't beat them, you might as well join 'em And be glad to say you were there Ahhhh say you were there

Don't you know that God blessed video We know that God blessed video We know that God blessed video

Don't you know that God blessed video We know that God blessed video We know that God blessed video
