## Only one woman

## Alcatrazz

Ten little Indians
Standing around
I bet there are many
So how would I know

As she was only one woman — only one woman And I've got a picture of the woman I love Who sees my lovely face?
Who sees my shame
Nobody in the place
Can tell me her name.

'Cause she was only one woman - only one woman And I've got a picture of the woman I love Ten little indians
Now there are none
I bet there are many
And her love still goes on.

'Cause she was only one woman - only one woman And I've got a picture of the woman I love Well she was only one woman - only one woman And I've got a picture of the woman I love ...
