Alcazar

If you think I'm hiding  
Don't take too much notice  
You can come and find me  
Melt me with your eyes

Give me a good reason  
It only takes a moment  
I can make it easy  
Take me for a ride

Turn on  
To my Inhibitions  
Dream on  
See what's in my mind  
I can  
Give you my permission  
Search and you will find

My Inhibitions

If you see me running  
Change my navigation  
You can get my number  
You don't have to look it up

Honey I'm no angel  
Here's my invitation  
Try a little danger  
You can book me up

Turn on  
To my Inhibitions  
Dream on  
See what's in my mind  
I can  
Give you my permission  
Search and you will find

Know me then show me  
Turn out the light  
Free me then steal me  
Into the night

Move me don't lose me  
Take me away  
Tempt me and send me  
You may

Turn on
