## **Start The Fire**

You're baby's going out But she doesn't wanna go with you When the beat is loud Then she wants to dance with someone new She moves with the disco nation

But you shouldn't lay the blame Don't point your hand in our direction You shouldn't play the saint We always rocked your party

We didn't start the fire It was always burning since the world's been turning No, we didn't start the fire No we didn't light it but we tried to fight it

00-aa, 00-aa 00-aa, 00-aa

When your baby's on the move Don't you blame it on the melody It's just another groove Being laid out for the dancing feet By this Alcazar DJ

So you should lay the blame  $\ldots$ 

We didn't start the fire ...

Everybody's dreaming Everybody's screaming Everybody's steaming on the night train night train Everybody's swaying Everybody's yeah-ing Everybody's playing on the love game love game

You should lay the blame ... (We didn't start the fire) We didn't start the fire ... (x 2) We didn't start the fire
