

In those days
I had no reason for grieves and tears
All the actions I took was just for me and myself
Loving was only for fun
Well, now those days are gone
I'm in the autumn of my years
And I feel such a void when I'm a lonely in my bed
And I wake up the very same way
Come to me
Lay down next to me
Keep me company
You put a song in my heart
Come on and take my hand, we're off to Wonderland
I hear a symphony, each time you're here with me
Heavenly, that's what my life could be
Come on and take my hand, we're off to Wonderland
Oh, way back then
I used to change the rainbow's end
But my paradise found turned into paradise lost
There's always a price to be paid
Well, now those days are gone
And when I look back at my life
All the pictures are blurred and all those nights feel like one
And the parties weren't really that fun
Oh, come to me
Lay down next to me
Keep me company
You put a song in my heart
Come on and take my hand, we're off to Wonderland
I hear a symphony, each time you're here with me
Heavenly, that's what my life could be
Come on and take my hand, we're off to Wonderland
Oh, I used to crave attention from every stranger in the night
I used to fear the morning, the early morning light
But when the ecstasy subsided and the good times went away
You found me there, so stay with me and keep me company
Come on and
Come on and take my hand, we're off to Wonderland
There is a place for us, there is a hope for us
Heavenly, that's what my life could be
Come on and take my hand, we're off to Wonderland
Take my hand, we're off to Wonderland
(Making love was just for fun)
(Now those days are really gone)
I hear a symphony, each time you're here with me
(I'm in the autumn of my life)
(And when I wake up, I'm alone in my bed)
Heavenly, that's what my life could be
(Making love was just for fun)
(Now those days are really gone)
Come on and take my hand, we're off to Wonderland
(I'm in the autumn of my life)
(And when I wake up, I'm alone in my bed)
Making love was just for fun
Now those days are really gone
I'm in the autumn of my life
And when I wake up, I'm alone in my bed
