

If You Live Or Die

Alec Empire

Some people wanna see all the things they believe
and some people wanna believe in false love
I want that lovin of yours
I want that
you know it can be a secret needing to live in the past
when you know that you feel nothing at all
and you see yourself breaking glass just to see change in your
life
and all doors are closed
and suddenly you see false leaders coming down on you
you want it that way
you want it that way
you want it that way
no heaven , no hell it's the worst
it's simple to say good bye to a face that doesn't care
if you live or die
it's simple to say good bye to a face that doesn't care
if you live or die
if you live or die
and you feel the love I wanna feel
and all your fear - all your fear
compressed into a single prayer so far from god
so far from god
so far from god
you want it that way
you want it that way
you want it that way
it's simple to say good bye
