

# Overdose

Alec Empire

You...

I can see what you're trying to do  
You gimme a look like I should kill  
I wanna be so high that I can't see no more  
Come on!

Hey!

Hey!

And me...

I feel like my blood is running cold  
And my heartbeat is going low  
I'm in that special kind of need  
I know I'm going down

I'll leave a trail of blood  
So don't even come my way  
It'll be a high price you gonna pay

Delusion!

Come on!

Delusion!

Delusion!

Delusion!

We went too far!

Addiction!

Addiction!

Addiction!

We went too far!

I pay you and I betray you  
And you don't do anything at all  
This hell feels too well

We know that everything is wrong  
We're chained up in the state of liars  
And we got nothing more to lose  
I know what I want and I know what to do:  
I'm gonna get a gun  
Then they gotta give me what I want  
'Cause I'm the one  
Breakdown...

Delusion!

Come on!

Delusion!

Delusion!

Delusion!

We went too far!

Addiction!

Addiction!

Addiction!

We went too far!

How much longer you want to pay?

How much longer you gonna pay?

How much longer ?

I want to know!

I want to know!
