

# Some People Fall, Some People Fly

Alecia Elliott

It was a long hard road  
It was all uphill  
We nearly lost our way  
We nearly lost our will

So we clung to the rocks  
Oh where the cold winds blow  
'Till love gives us strength to finally let go  
We climbed that mountain

And we got so high  
Then on the wings of an angel  
We took to the sky  
Out here on the edge

Love dared us to try  
Baby, some people fall, some people fly  
Many they fall  
For passions kiss

And many they say  
Is this all there is?  
Well it never was easy  
To rise above

To look into the eyes of love  
We climbed that mountain  
And we got so high  
Then on the wings of an angel

We took to the sky  
Out here on the edge  
Love dared us to try  
Baby, some people fall, some people fly

And baby love has no fear  
Leap and a net will appear  
We climbed that mountain  
And we got so high

Then on the wings of an angel  
We took to the sky  
Out here on the edge  
Love dared us to try

Baby, some people fall, some people fly  
Some people fly  
Some people fly
