

You Wanna What?

Alecia Elliott

Some guys
Oh they're really something
Always acting like their so hot
And you
You don't seem any different
I keep wishing but I guess your not

You want to what?
I don't think so
I don't waste my time on guys like that
You might be tough but that's not enough to make
It last
You want to what?

Those eyes
Oh I see right through em
The way you stare gives you away
Don't even go there
Oh you just don't get it
Real love can't be that way

You want to what?
I don't think so
I don't waste my time on guys like that
You might be tough but that's not enough to make
It last
You want to what?

Oh
Don't you think that you oughta be ashamed
Oh
I hate to tell you I don't play that game

You want to what?
I don't think so
I don't waste my time on guys like that
You might be tough but that's not enough to make
It last
You want to what?

You want to what?
I don't think so
I don't waste my time on guys like that
You might be tough but that's not enough to make
It last
You want to what?

Yeah
