Tall dark and handsome doesn't come close to you
And those baby blue's
Ain't looking for no substitute, honey it's no use
No way you'd ever lose

I don't know what to say
Each and every single day
Can't explain how you make me feel

Just a little bit
Crazy
I love everything about you
Baby
When you treat me like I'm the
Only girl
In the world
That makes you feel
The way I do
Your hugs and kisses got me thinking
We should be together always
Baby are you feeling it too?
Just a little bit
Crazy

And that smart little attitude
Can't help but love what you say it's true
You make me wanna be next to you
It's that kind of feeling you just fall into

I don't know what to say
Each and every single day
Can't explain how you make me feel

Just a little bit
Crazy
I love everything about you
Baby
When you treat me like I'm the
Only girl
In the world
That makes you feel
The way I do
Your hugs and kisses got me thinking
We should be together always
Baby are you feeling it too?
Just a little bit
Crazy

Some things you don't know when or why
Like how
Everybody's got that someone to find
And boy this feels so right

Just a little bit

Crazy
I love everything about you
Baby

When you treat me like I'm the
Only girl
In the world
That makes you feel
The way I do
Your hugs and kisses got me thinking
We should be together always
Baby are you feeling it too?
Just a little bit
Crazy
