

# Only the Strong Survive

Alee

The world didn't end but it felt like it was over  
Felt like I was standing on the edge  
Everything just moving in slow-motion  
Yeah I was powerless

The moment I was at my weakest  
I heard a little voice inside  
So small I could barely hear it  
But turned into a battle cry

Only the strong survive  
Only the brave will fight  
Yeah you can  
Knock me to the ground I'm still breathing  
Can't break a heart that's still beating  
Yeah I'll make it out alive  
Cause only the strong survive

Maybe if I was a different person  
I'd shut my eyes in fear and run away  
You can put up walls but I'll crash through them  
Like a heavyweight

Even in my weakest moments  
I'm gonna look you in the eye  
I've still gotta keep my focus  
With my head held high

Only the strong survive  
Only the brave will fight  
Yeah you can  
Knock me to the ground I'm still breathing  
Can't break a heart that's still beating  
Yeah I'll make it out alive  
Cause only the strong survive

I'll outrun  
Outsmart  
Outlast  
If I have to do it with my hands behind my back

Knock me to the ground, I'm still breathing  
Can't break a heart that's still beating  
Only the strong survive  
Only the brave will fight  
You can  
Knock me to the ground, I'm still breathing  
You can't break a heart that's still beating  
Yeah I'll make it out alive  
Cause only the strong survive  
Only the strong survive
