

# Lullaby

Aleesia

You've been wishing on stars  
That I could be where you are  
Love will dry all your tears  
Cause I'm already here

When you're sleeping  
You can reach me

So close your eyes  
Rest your head  
Dream of me when you're in bed  
Kiss me, sway, say good night  
I'll sing you a lullaby

In the morning, when you wake  
I'll be gone with yesterday  
All day long, you wonder why  
You'll sing in a lullaby

Sleep all night  
Sleep all day  
For a moment with me

Here with you where I'll be  
As long as you stay asleep

When you're sleeping  
You can reach me

So close your eyes  
Rest your head  
Dream of me when you're in bed  
Kiss me, sway, say good night  
I'll sing you a lullaby

In the morning, when you wake  
I'll be gone with yesterday  
All day long, you wonder why  
You'll sing in a lullaby

Lullaby  
Hey ah hey  
Lullaby (lullaby)

In the morning, when you wake  
I'll be gone with yesterday  
All day long, you wonder why  
You'll sing in a lullaby

Just say the word  
When you need me to hold you  
Whenever you're hurt  
I'm here to console you

Love you still the sunrise comes  
Passing stars you're wishing on  
Please go steeper, we should dream of

So close your eyes  
Rest your head  
Dream of me when you're in bed  
Kiss me, sway, say good night  
I'll sing you a lullaby

In the morning, when you wake  
I'll be gone with yesterday  
All day long, you wonder why  
You'll sing in a lullaby

Lullaby  
Oh-oh  
Lullaby (lullaby)

In the morning, when you wake  
I'll be gone with yesterday  
All day long, you wonder why  
You'll sing in a lullaby

Lullaby  
Oh-oh  
Lullaby

In the morning, when you wake  
I'll sing you a lullaby
