

# Wave

Alejandro Escovedo

Wave goodbye  
Everybody waves goodbye  
Climb aboard the train  
Turn and wave goodbye again

Some go north, some go south  
Maybe east, some left out  
Some are rich, some are poor  
But everybody's got to wave

Wave goodbye  
We're headed for the other side  
The sun shines brighter there  
And everyone's got golden hair.

They went north, they went south  
Maybe east, some left out  
Some are rich, some are poor  
Someone blessed somewhat more

Because I'm sick  
We're gonna find the ones that left  
A boy climbs aboard the train  
Never to wave bye again

They went north, they went south  
Maybe east, some left out  
Some are rich, some are poor  
But everybody's got to wave

Don't you cry  
We made it to the other side  
The sun's not brighter here  
It only shines on golden hair

I went north, I went south  
Maybe east, some left out  
Some are rich, some are poor  
But everybody's got to wave
