Wave

Alejandro Escovedo

Wave goodbye Everybody waves goodbye Climb aboard the train Turn and wave goodbye again

Some go north, some go south Maybe east, some left out Some are rich, some are poor But everybody's got to wave

Wave goodbye
We're headed for the other side
The sun shines brighter there
And everyone's got golden hair.

They went north, they went south Maybe east, some left out Some are rich, some are poor Someone blessed somewhat more

Because I'm sick
We're gonna find the ones that left
A boy climbs aboard the train
Never to wave bye again

They went north, they went south Maybe east, some left out Some are rich, some are poor But everybody's got to wave

Don't you cry We made it to the other side The sun's not brighter here It only shines on golden hair

I went north, I went south
Maybe east, some left out
Some are rich, some are poor
But everybody's got to wave
