

# All Night Dance Parties In the Underground Palace

Alesana

Beautiful you know you leave me breathless when  
You fall into my eyes  
My heart belongs to you my angel  
There is just no reason for you to let  
Life bring you down  
Please come with me and let me show you

I know that at times it may be hard  
To let go of yourself  
Baby girl tonight leave your cares behind  
Because it's time to celebrate  
All night long I'll sing and dance with you  
My sweet princess only if you trust in this...  
Take my hand and follow me  
I will sweep you  
(I will sweep you)  
Off of your feet  
All night long I will sing and dance with you

Everytime I look at you I can't believe  
How Magical you are  
The stars belong to you my angel  
Run away with me into a world where time  
Seems to not exist  
The smile on my face will show you

I know that at times it may be hard  
To let go of yourself  
Baby girl tonight leave your cares behind  
Because it's time to celebrate  
All night long I'll sing and dance with you  
My sweet princess only if you trust in this...  
Take my hand and follow me  
I will sweep you  
(I will sweep you)  
Off of your feet  
This night will only end when we stop  
Dancing

My sweet princess  
I will sing and dance with you  
(All night long)  
The stars, they belong, to you My Angel

All night long I'll sing and dance with you  
My sweet princess only if you trust in this...  
Take my hand and follow me  
I will sweep you  
(I will sweep you)  
Off of your feet  
This night will only end when we stop
