## All Night Dance Parties In the Underground Palace

Alesana

Beautiful you know you leave me breathless when You fall into my eyes My heart belongs to you my angel There is just no reason for you to let Life bring you down Please come with me and let me show you

I know that at times it may be hard To let go of yourself Baby girl tonight leave your cares behind Because it's time to celebrate All night long I'll sing and dance with you My sweet princess only if you trust in this... Take my hand and follow me I will sweep you (I will sweep you) Off of your feet All night long I will sing and dance with you

Everytime I look at you I can't believe How Magical you are The stars belong to you my angel Run away with me into a world where time Seems to not exist The smile on my face will show you

I know that at times it may be hard To let go of yourself Baby girl tonight leave your cares behind Because it's time to celebrate All night long I'll sing and dance with you My sweet princess only if you trust in this... Take my hand and follow me I will sweep you (I will sweep you) Off of your feet This night will only end when we stop Dancing

My sweet princess I will sing and dance with you (All night long) The stars, they belong, to you My Angel

All night long I'll sing and dance with you My sweet princess only if you trust in this... Take my hand and follow me I will sweep you (I will sweep you) Off of your feet This night will only end when we stop
