

In Her Tomb by the Sounding Sea

Alesana

So I'm thinking we shouldn't be here,
just run away from here with no bet of coming back.
We can stay away forever,
and I wish love will be all we have and

I will save your life,
(it's happening again, it's happening again)
I won't watch you die.
(it's happening again, it's happening again)

I can see it's not the first time,
you have come and taken her from me.
Let me show you it's not the last time
or the way you said you'd pray.

You took her once,
shame on you,
oh.
You took her twice,
shame on me.

Whisper softly
and tell me that you love me,
I will save you.
I don't know what to do.
Please forgive me
and know that I am sorry,
I will save you.
I don't know what to do.

Took her, said I left for me.
(save you)
I'm falling apart.

Do you realize it's over?
There's no chance of leaving here alive.
It'll be like what I'm saying,
where they may, you can't survive.

You took her once,
shame on you,
oh.
You took her twice,
shame on me.

Whisper softly
and tell me that you love me,
I will save you.
I don't know what to do.
Please forgive me
and know that I am sorry,
I will save you.
I don't know what to do.

Took her, said I left for me.
(save you)
I've lost it all,

I'm falling apart.

You will kill my heart,
(I'm falling apart)
I don't know where to start.

I don't want to go,
(it's happening again, it's happening again)
but I can't let it show.
(I'll be with her again, together to the end)
If I have to go,
(it's happening again, it's happening again)
I'll be damned if I'm alone.
(I'll be with her again)

Whisper softly
and tell me that you love me,
I will save you.
I don't know what to do.
Please forgive me
and know that I am sorry,
I will save you.
I don't know what to do.

Took her, said I left for me.
(save you)
I'm falling apart,
I've lost it all.
