

## Colour

Alesha Dixon

Thought that's how the world would be for me  
I never knew what it was gonna take  
Made some monumental mistakes  
And saw the blue skies wash away

I was so lost, save me at all costs  
When I need you baby, when I need you  
When the lights off, I feel the rain fall  
That's when I see you, that's when I see you

Colour- la-la-la-la-la-la-la-la-la-la-la-la-la-la-la  
It lived inside of my heart  
You bought it back with your love  
Colour- la-la-la-la-la-la-la-la-la-la-la-la-la-la-la  
When it was all black and white  
You made everything right  
You make it right right right right right

I forgot who I was supposed to be  
Reminded me of a hope again, you made me dream  
Red, orange, yellow, blue, indigo, violet, green  
You're the start and the end of my rainbow

I was so lost, save me at all costs  
When I need you baby, when I need you  
When the lights off, I feel the rain fall  
That's when I see you, that's when I see you

If the rain falls hard, I know where you are  
I know where you are if the rain falls  
If the rain falls hard, I know where you are  
I know where you are if the rain falls
