

People Need Love

Alesha Dixon

Make me strong enough to fly
Brave enough to fall
The energy to climb
My way over your walls
Make me, just make me everything

Make me unforgettable
Like your favourite song
If that's impossible
Don't know if I'll go on
Make me, just make me everything, yeah

People need good times, memories
People need true friends, family
People like heartache, crying
Rather than love, love, love
People need sunlight and clear skies
People need moonlight and sunrise
People like no hope and dull nights
Rather than love, love, love

Happiness don't leave
I follow where you go
You can take the lead
I can play the role
Make me, just make me everything

Take your time with me
I may be the one
Cause when you come around
I feel just like a child
Make me, just make me everything
Make me everything

Cause people need good times, memories
People need true friends, family
People like heartache and crying
Rather than love, love, love
People need sunlight and clear skies
People need moonlight and sunrise
People like no hope and dull nights
Rather than love, love, love

People need love
A-la-la-la-la-la-la-la-love
People we all need love
I said la-la-la-la-la-love
All my people, yeah, you know we need love (sing)
La-la-la-la-la-love
People, yeah, we all need love, love, love
People need love
