

Somebody Save Me

Alex Band

Once was enough to last forever
It took years just to put me back together
And I don't wanna fall in love again
No I don't wanna fall in love again

Can somebody save me?
Come on and save me now
Is there anybody here who can help me out?
Cause my heart is breaking
Everything's upside down
Is there anybody here who can help me out?

Can you help me out?
Just drive me a line I think I'm sinking
She's pulling me in what was I thinking
Cause I don't wanna fall in love again
No I don't wanna fall in love again

Can somebody save me?
Come on and save me now
Is there anybody here who can help me out?
Cause my heart is breaking
Everything's upside down
Is there anybody here who can help me out?

Can you help me out?
Now I'm on my knees
Come and save me please
Cause i'm on my knees

And I don't wanna fall in love again
No I don't wanna fall in love again

Can somebody save me?
Come on and save me now
Is there anybody here who can help me out?
Cause my heart is breaking
Everything's upside down
Is there anybody here who can help me out?

Can you help me out?
Cause I don't wanna fall in love again
